

■ ZigZag Family

Delta 24

İçten Montaj Clips Braketli Sineklik Sistemi

The ZigZag system is the most versatile and convenient solution for large horizontal openings. This pleated mesh insect screen is able to span up to 4 metres wide with a single unit, whilst a double unit can accommodate an opening up to 8 metres with no need of extra profiles in the whole opening. The ZigZag maintains the attractive pleated fabric look with the advantage of reduced profile dimensions (only 27mm).

ZigZag 16 Alternatif ve ekonomik katlanır sineklik sistemidir. Plisse eşiksiz sistemin aksine katepil yerine ip ile çevrim tamamlanır. Geniş uygulama seçenekleri arasında "Merkezi Paket" 4,5 metreye kadar tek kanat kapı imalatını mümkün kılar. Zac eşik montaj ve alından montaj yapılabilen kısaltılabilir bir katlanır sineklik sistemidir. İstendiğinde sadece 2 profille bir pencere yada kapı sinekliği imal edilebilir.

E

Delta 24 is the alternative pleated mesh system that uses clips for inset installation . A wide variety of possible versions, from the “center pack” that allows the “impossible to match” record of 4.5 meters door in a single panel, to the Zac, the resizable insect screen for doors and windows, face mount and inset mount.

Options available:

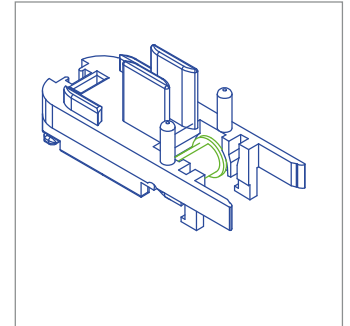

- Sliding bar caps whit wheels. Soft movement.
- Small 7 mm bottom rail
- Reinforcement profile for larger openings
